

Safety Data Sheet according to regulation (EC) No 1907/2006

Product identifier: base*F smokefluid hazebase
Revision date: 27.07.2020
Print date: 27.07.2020
Version: 1.0

SECTION 1: Identification of the mixture and of the company/undertaking

1.1 Product identifier

base*F smokefluid

1.2 Relevant identified uses of the mixture and uses advised against

Use of the Mixture: To produce smoke and dust
Uses advised against: At this moment we have not identified any uses advised against

1.3 Details of the supplier of the safety data sheet

Company name:
hazebase

Street:
Stargarder Straße 2

Place:
D-30900 Wedemark

Telephone for technical information:
+49 (0) 5130 / 371005

Telephone / Telefax / E-Mail
+49 (0) 5130 / 371005 / +49 (0) 5130 / 371006 / e-mail: al-sdb@hazebase.com

1.4 Emergency telephone

+49 (0) 30/19240 Poison control centre of the Charité Universitätsmedizin Berlin
Available 24h/7d

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

This mixture is not classified as dangerous according to Regulation (EC) No 1272/2008 [CLP/GHS]

2.2 Label elements

Not necessary

2.3 Other hazards

Results of the PBT- and vPvB-assessment
PBT: inapplicable
vPvB: inapplicable

No health impairments are known or to be expected in the case of proper handling.

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable

3.2 Mixtures

Description of the mixture:
Solution of purified water and glycol.

No hazardous ingredients according to Regulation (EC) No 1907/2006 (Reach)

Non-hazardous ingredients

CAS-No.
Index-No.
EC-No.
REACH No.

112-27-6
--
203-953-2
01-2119438366-35-xxxx

2,2'-(Ethylendioxy)diethanol

Concentration %

>70

Classification
(EC) No. 1272/2008 (CLP/GHS)

not classified
*Germany.TRGS 900, AGW
1.000 mg/m³ E

*Occupational Exposure Limits (AGW), Exposure limit(s)

Product identifier: base*F smokefluid hazebase
Revision date: 27.07.2020
Print date: 27.07.2020
Version: 1.0

SECTION 4: First aid measures

4.1 Description of first aid measures

General information: Remove contaminated clothing.
Following skin contact: After contact with skin, wash immediately with: Water and soap
Following eye contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, transport to the nearest medical facility for additional treatment.
Following inhalation: Move to fresh air. If symptoms persist, consult a doctor.
Following ingestion: Rinse mouth with water and drink large plenty of water. DO NOT INDUCE VOMITING. If swallowed. Seek medical advice immediately.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms : No data available
Effects: No health impairments are known or to be expected in the case of proper handling.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media: Atomized water, extinguishing powder, alcohol-resistant foam, CO₂.
Unsuitable extinguishing media: High volume water jet

5.2 Special hazards arising from the substance or mixture

Specific hazards during firefighting: May decompose in fire forming toxic gases.
Hazardous decomposition products: Carbon dioxide (CO₂), carbon monoxide.

5.3 Advice for fire-fighters

Special protective equipment for firefighters: In the event of fire, wear self-contained breathing apparatus. Wear personal protective equipment.
Further advice: Cool closed containers exposed to fire with water spray. Heating will cause a pressure rise - with risk of bursting. Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions: Wear personal protective equipment. Keep unprotected persons away. Provide adequate ventilation.
Further advice: Special risk of slipping due to leaked/ spilled product.

6.2 Environmental precautions

Environmental precautions: Do not flush into surface water or sanitary sewer system.
Avoid subsoil penetration.

6.3 Methods and material for containment and cleaning up

Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents).
Place in suitable and closed containers for disposal. Treat the collected material according to section Disposal.

6.4 Reference to other sections

For emergency information see section 1.
Protection measures see section 7 and 8.
See Section 13 for waste treatment information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

If using chemicals the usual precautions have to be observed.
After work wash hands.

7.2 Conditions for safe storage, including any incompatibilities

Keep container closed.
Suitable container materials: PE, PP, PET, stainless steel, glass.
Recommended storage temperature: max. 60°C / 140°F

7.3 Specific end use(s)

Smoke fluid

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Product identifier: base*F smokefluid hazebase
Revision date: 27.07.2020
Print date: 27.07.2020
Version: 1.0

Component:	2,2'-(Ethylendioxy)diethanol	CAS-Nr. 112-27-6
Specification :	Germany. TRGS 900, Occupational Exposure Limits (AGW), Exposure limit(s); Inhalable fraction.	
Value :	1000 mg/m ³ E If the AGW and BGW values are complied with, there should be no risk of reproductive damage (see Number 2.7).	

8.2 Exposure controls

Personal protective equipment.
General protection and hygiene measures. Keep away from beverages, food and feed.
Immediately remove soiled or soaked clothing.
Washing hands before breaks and at the end of work. Avoid contact with skin and eyes.
Respiratory protection: Not required, when used as intended.
Hand protection: Solvent resistant gloves.
Eye protection: Tight-closing safety goggles.
Skin and body protection: Protective work clothing

Environmental exposure controls
General advice: Do not flush into surface water or sanitary sewer system.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

9.1.1 Appearance

- Physical state: Liquid
- Colour: Colourless
- Odour: Odourless
- Odour threshold: no data available

9.1.2 Safety relevant basic data

- pH-value (20°C/68°F): not applicable (DIN 19268)
- Boiling point (1013 hPa): 280-295°C/ 536-563°F
- Ignition temperature (solid, gaseous): no data available
- Decomposition temperature: no data available
- Danger of explosion: no data available
- Upper explosion limit: no data available
- Relative vapour density: no data available
- Relative density (20°C/68°F): no data available
- Distribution coefficient (log Pow): no data available
- Viscosity, kinematically: no data available
- Melting point: -6°C / 21,2°F
- Flash point: >175°C / >347°F
- Ignition temperature: >400°C / >752°F
- Auto-ignition temperature: no data available
- Lower explosion limit: no data available
- Steam pressure (20°C/68°F): no data available
- Density (20°C/68°F): 1,11 g/cm³ (ISO 387)
- Water solubility (20°C/68°F): Complete miscible
- Viscosity / dynamic (20°C/68°F): 50 mPa.s

9.2 Other information

Further data were not determined.

SECTION 10: Stability and reactivity

10.1 Reactivity

None if used as intended.

10.2 Chemical stability

Stable under normal temperature and pressure conditions

10.3 Possibility of hazardous reactions

None if used as intended

10.4 Conditions to avoid

No decomposition when used as intend.
Protect from direct sunlight.
Keep container tightly closed.

10.5 Incompatible materials

Strong oxidising agents. Strong acids

10.6 Hazardous decomposition products

No hazardous decomposition products known in the field of application.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Product identifier: base*F smokefluid hazebase
Revision date: 27.07.2020
Print date: 27.07.2020
Version: 1.0

There are no toxicological findings about this mixture.

Component: 2,2'-(Ethylendioxy)diethanol **CAS-No. 112-27-6**

Acute toxicity

Oral: LD50: >2000mg/kg (rat)
Skin: LD50: >2000mg/kg (rabbit)

Rating/ classification of the substance/ mixture:

The mixture is not acutely toxic.

Skin corrosion/irritation

No skin irritation (rabbit; 4 h) (Draize test).

Serious eye damage/ irritation

No eye irritation (rabbit; 24 h) (Draize test)

Sensitization to the respiratory tract or skin

Non-sensitizing (Patch-test; dermal; people)
The classification criteria are not fulfilled on the basis of the available data.

Germ cell mutagenicity

The mixture is not classified.
The mixture does not contain substances classified as mutagens.

Carcinogenicity

The mixture is not classified.
The mixture does not contain substances classified as carcinogens.

Reproductive toxicity

The mixture is not classified.
The mixture does not contain substances classified as toxic for reproduction.

Specific target organ toxicity - repeated exposure

The classification criteria are not fulfilled on the basis of the available data.

Specific target organ toxicity - single exposure

The classification criteria are not fulfilled on the basis of the available data.

Aspiration hazard

The classification criteria are not fulfilled on the basis of the available data.

Other information

No health impairments are known or to be expected in the case of proper handling.

SECTION 12: Ecological information

12.1 Toxicity

Fish: LC50: > 10000 mg/l (Lepomis macrochirus; 96 h) (statistical test)
Toxicity to water fleas and other invertebrate aquatic animals: EC50: > 10000 mg/l (Daphnia magna (large water flea); 48 h) (Statistical test; DIN 38412)
Algae: EC0: > 10000 mg/l (Scenedesmus subspicatus; 192 h)

12.2 Persistence and degradability

Persistence: No data available
Biodegradability: Easily biodegradable. Analogy.

12.3 Bioaccumulative potential

Bioaccumulation is not expected.

12.4 Mobility in soil

Water: The product is water soluble.
Air: Non-volatile
On the ground: Adsorption on the ground is not to be expected.

12.5 Results of PBT and vPvB assessment

Mixture is not considered to be persistent, bioaccumulating nor toxic (PBT).
Mixture is not considered to be very persistent and very bioaccumulative nor (vPvB).

12.6 Other adverse effects

Product identifier: base*F smokefluid hazebase
Revision date: 27.07.2020
Print date: 27.07.2020
Version: 1.0

Do not empty into drains or the aquatic environment.
No further relevant information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product

Small amounts diluted with water, dispose with wastewater. Larger amounts back to the manufacturer.

Packaging

Rinse empty packaging with plenty of water, then recycle, landfill or incinerate in an orderly manner.

Advice cleaner: Water, in case with cleaner.

SECTION 14: Transport information

14.1 UN-No

Not applicable

14.2 Proper shipping name:

Not applicable

14.3 Class(es)

No dangerous goods under the provisions of ADR road transport / RID railway transport / AND / IMDG sea transport / IATA air transport.

14.4 Packing group

Not applicable

14.5 Environmental hazards

Not applicable

14.6 Special precautions for user

Not applicable

14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

This product is not intended for transport in bulk.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the mixture

National regulatory information (D):

Water contaminating class (D): 1 - slightly water contaminating.

15.2 Chemical Safety Assessment

Chemical safety assessments for this mixture were not carried out.

SECTION 16: Other information

Applicable EC-Directives

REACH-Regulation (EC) No. 1907/2006

CLP-Regulation (EC) No. 1272/2008

Supplier information and data from the "Database of registered substances" of the European Chemicals Agency (ECHA) were used to create this safety data sheet.

Methods used for product classification:

The classification for human health, physical and chemical hazards and environmental hazards were derived from a combination of calculation methods and if available test data.

Section 1-16 have been revised.

Abbreviations and acronyms:
